

Powdermaster Blower Attachment

Powdermaster Blower Attachment Option

The Powdermaster blower attachment is supplied as a kit that can be easily fitted to the Powdermaster applicator. A wiring loom is included that enables the electrical connections to be made via a switching control circuit to synchronise the operation of the blower with the Powdermaster.

The blower assembly can be mounting so that the pipe outlet is in a left or right direction. It can be fitted to both 50kg or 80kg Powdermaster, with digital and non digital controller.
